(By United Press.)

Indianapolis, Ind., Dec. 5.—The federal grand jury probe of the activities of the coal miners and mine operators will extend back to the time the United States declared war against Germany, it was learned officially today.

The first impression was that the investigation would only cover the time the strike has been in effect.

Information charging contempt of court was filed against thirteen officials of two local unions at Clinton, Ind., today, as planned when the eighty-four original defendants to the government's anti-strike injunction were cited for contempt.

This brings the total number of defendants to 97.

The local union officials will be arrested as soon as writs for their arrest can be issued. Their bonds were fixed at \$5,000 each. The bonds of the other eighty-four who include the district and international leaders, have been fixed at \$10,000 each.

The Clinton men will be notified to appear before Federal Judge A. B. Anderson at 10 o'clock Tuesday along with the eighty-four. The five general charges against them are:

Causing strike benefits to be paid in violation of the injunction.

Conspiring and combining, agreeing and arranging to limit production and distribution facilities.

Gov. Cox Has Factions in Coal Con-
troversy in Different Rooms
When Conference Opens

HE ACTS AS THE GO-BETWEEN

(By United Press.)

Columbus, Ohio, Dec. 5.—When the conference of Ohio coal operators and mine officials called by Governor Cox, opened at the governor's office at eleven o'clock today in an effort to arrive at a wage agreement that would open Ohio's mines, the governor had the operators in one room and the miners in another. He himself was acting as a go-between, carrying propositions and suggestions back and forth. At the opening the governor spoke to both sides, pointing out the misery and suffering that has already resulted from the coal shortage and the still greater hardships threatened.

Reports were current that the operators had assured the governor before the meeting that they would be willing to make wage concession to the miners even above the 14 percent increase that was fixed by Coal Administrator Garfield, but they were opposed to giving the 31 percent increase urged by Secretary of Labor Wilson.

On the other hand miners seemed to be inclined to hold out for the 31 percent.

Million Idle Due To Strike Of The Miners

Unofficial Estimates Place Wage
Loss at More Than Two Million
Daily, With Hundreds of Industrial
Plants Closed. 15,000 Passenger
Trains Eliminated.

(By United Press.)

The coal famine had extended today until more than one million workers either were idle or working part time, according to an unofficial estimate in Washington.

The wage loss, it was believed, totaled more than two million dollars a day, while the loss in business is many times that figure.

Kansas and Oklahoma continued to operate their mines while in Ohio operators and miners representatives met with Governor Cox in an effort to effect a wage agreement, failure of which may mean state operation there.

Hundreds of industrial plants in the middle west were shut down, with their number increasing daily. About 15,000 passenger trains were eliminated Monday between Chicago and the Pacific coast.

Passenger traffic on the eastern railroads will be curtailed beginning Wednesday, it was announced. The Twentieth Century Limited will be withdrawn from the service.

Unverified reports were circulated to the effect that the fuel administration was considering questioning governors to arrange an extra two weeks vacation for schools to follow the regular Christmas recess.

main in effect.

Ignoring and disobeying the withdrawal order of their international officials.

CONSULAR AGENT JENKINS IS FREED

(By United Press.)

Washington, Dec. 5.—William Jenkins American consular agent, has been released from the penitentiary at Puebla, Mexico, the state department announced today.

Called Meeting.

There will be a called meeting of the Phoenix Lodge No. 62 F. & A. Masons, Saturday morning at 9:30, for the purpose of attending the funeral of George W. Hall, a member of the local order, whose funeral services will be held tomorrow at the home of Mrs. Kate Hopper in Dunreith, Ind.

TO PROBE STRIKE

Charleston, W. Va., Dec. 5.—Lon H. Kelly, United States district attorney, southern district of West Virginia, announced today that a special grand jury had been called for next week to investigate charges growing out of the coal strike.

CABINET ADJOURNS.

Washington, Dec. 5.—President Wilson's cabinet adjourned today after a two and one-half hour discussion of the Mexican situation, the coal strike and the railroads.

MISSOURI SEIZES MINES

Jefferson City, Mo., Dec. 5.—Missouri coal mines were taken under control by the state under a proclamation issued by Governor Gardner today.

MAY CALL FOR CONFERENCE

Gov. Goodrich Likely to Meet Miners
and Operators Tomorrow.

(By United Press.)

Indianapolis, Ind., Dec. 5.—Governor Goodrich is considering calling a conference of the miners and the operators if the one now being held by Governor Cox is successful, he announced today.

Governor Goodrich meets the strip mine operators tomorrow and if the developments at Columbus are satisfactory, the miners and operators will be called in at that time, Goodrich added.

JURY DISAGREES IN DAMAGE SUIT

Final Decision is Reached Early To-
day in Case of Garrison vs.
Widau For \$5,000

JURY DELIBERATES 10 HOURS

Case of State vs C. B. Collins, For-
mer Shelby County Clerk, For
Embezzlement Sent Here

The jury disagreed early today in the case of Garrison against John A. Widau, after being out for more than ten hours deliberating over the evidence and balloting. The case went to the jury at three o'clock yesterday afternoon and it was after one o'clock this morning before a final decision was made to disagree, the votes being equal.

Not many witnesses were used in the case, the evidence being quickly introduced. Garrison, who formerly lived on the Henry Kaehl farm in Washington township, was suing Widau, a farmer in northern Rush county, for \$5,000 damages alleged due him, as the result of an auto accident, when Widau crashed into a spring wagon in which he and his daughter were riding.

Garrison's complaint was in two paragraphs, the first maintaining that Widau was careless and negligent, and the second paragraph alleging that Widau ran his machine into the spring wagon.

A case of unusual interest was sent here this morning on a change of venue from Shelby county, it being the case of the State against Cecil B. Collins, former clerk of the Shelby circuit court. He was indicted in 1918 by the grand jury at Shelbyville on charges of embezzlement, after he had resigned from the

MEXICAN BANDITS RAID U. S. RANCH

Cross Rio Grande 11 Miles Below
Zapata, Texas, and Loot Store
of All Provisions.

DETAILS SENT TO SEN. FALL

(By United Press.)

Laredo, Texas, Dec. 5.—Mexican bandits raided the Clareno ranch eleven miles down the Rio Grande from Zapata, Texas, according to a telephone message received here today.

The bandits crossed the Rio Grande into Texas late last night, rode to the general store on the ranch, bound and gagged the store keeper, tied him to a post, and then looted the store. They took all the provisions in the store, packed them on several horses stolen from the ranch and then swam the Rio Grande back to Mexico.

The facts were at once communicated to Captain Hanson, special investigator for the senate committee investigating the Mexico situation, and wired the details to Senator Fall.

COUNCIL TO HEAR REMONSTRATORS

Sets Thursday Night, December 16,
as Time For Remonstrances
Against Third Street

LAST MEETING FOR THE YEAR

C. I. & W. To Ask Council's Permis-
sion to Replace Watchmen With
Bells at 2 Crossings

The City Council has decided to hear remonstrances from the property owners who are affected by the assessments placed by the Third Street paving, on Tuesday night, Dec. 16, at seven-thirty o'clock, which is their last meeting for this year. The cost of the paving from Buena Vista Avenue to Julian street was placed at \$30,450, and the various property owners were assessed proportionately.

A list of the amount assessed each property owner is now on file in the office of the city treasurer in the court house, and if there are no remonstrances against the price assessed each owner, the street will be up for final approval and acceptance.

Representatives of the C. I. & W. railroad were in this city yesterday and will ask the council at their next meeting night, the privilege of taking off the crossing watchmen at the Arthur and Sexton street crossings. They will, however, replace the watchmen with signal bells, if the council will grant them permission.

The railroad reverts to its right-of-way January first, and it was pointed out that the road is now in debt and will endeavor to save on some of the smaller things. The cost of maintaining flagmen at these two crossings amounts to about \$2,800 a year, while bells will cost about one-half, with practically no cost for their upkeep. The railroad officials stated that the trains come to a stop at both of these streets, and signal bells will answer the same purpose as the flagmen.

The C. I. & W. is also making plans for the continuance of their pre-war schedule, and will operate through trains from Cincinnati to Chicago, which were discontinued when the government took control of the railroads. It seems that other lines were favored by the government, and the C. I. & W. was given a blunt end.

PRESIDENT TO MEET THE TWO SENATORS

Wilson Was to Confer With Fall and
Hitchcock on Mexican Situa-
tion at 2:30 Today

FALL TO GIVE OUT EVIDENCE

Washington, Dec. 5.—President Wilson was to meet Senators Fall and Hitchcock at 2:30 o'clock this afternoon for a conference on the Mexican situation.

Senator Fall announced that he would make public the evidence on which he based his charges in the senate that the Mexican ambassador and consuls in the United States were circulating Red propaganda.

The decision to lay the whole question before the President was reached late yesterday after a day of vigorous activity on the part of the committee, including a long conference with Ambassador Fletcher and Secretary Lansing, who told the committee that he had not discussed any detail of the recent developments with President Wilson, and that the entire negotiations growing out of the arrest of Consular Agent William O. Jenkins had been handled by the state department.

TAX BOARD HIT BY SCHOOL MEN

District Conference Urges Education
be Less Interfered With by
Commissioners

RESOLUTIONS ARE PASSED

Favor Law Prohibiting Jumping
Contracts by Teachers, and
Consolidation of Schools

Resolutions urging that the state tax board not interfere too much with the progress of education and favoring a law prohibiting the jumping of contracts by teachers, were unanimously adopted at the close of the sixth congressional district conference on rural education in the court house late yesterday afternoon.

The closing address on the program was made by L. N. Hines, state superintendent of public instruction, on the subject, "Better Rural School", in which the speaker covered the same ground as in a speech before the annual meeting of the Rush County Teachers association here a week ago last Saturday. Following his talk, the township trustees present engaged in a general discussion of rural school problems and questions were put to Supt. Hines and answered by him.

The address by Z. M. Smith, state supervisor of vocational education, on the theme, "Vocational Agriculture and the Rural Schools," was thoroughly appreciated by the school officials. He made a comparative comparison between the methods now employed in teaching agriculture and those used when an all-time vocational teacher is employed under the Lever-Smith federal act, which provides that the federal government, state and township shall divide the expense of employing such a teacher. Such an instructor teaches in the schools during the term and devotes himself during the vacation period to club work and the teaching of practical methods on the farm.

B. J. Burris, assistant state superintendent of public instruction, in talking on the subject, "Giving the County Superintendent a Better Chance," pleaded for increased pay for the county superintendents of schools and also urged that clerical help be provided so that they can devote all of their time to the office. The salary is not such that a county superintendent can spend all of his time at this work, it was stated.

The attendance at the conference was a revelation to the state school officials, who are holding similar meetings in every district in the state. The interest was shown by the fact that more than one hundred school officials, as well as four county agricultural agents, attended the conference.

In addition to the things mentioned above, the resolutions recommended that a permanent organization be constructed out of the district conference and that it be carried into the various counties; also consolidation of the schools as the most effective means of improving rural education, and expressed the belief that more value should be placed on long and successful experience as qualifications for high school teachers.

The resolutions committee was composed of C. M. George, Rush county superintendent of schools; Earl Lines, Fayette county superintendent; and Charles C. Abernathy.

NEW DEPARTURE FOR CHRISTMAS

Daily Republican and Salvation
Army Will Combine Efforts in
Remembering Worthy.

ORGANIZATION IS FORMED

Cash Contributions Will be Accepted
by Republican and Army Will
Add Its Allotment.

The spreading of Christmas cheer in Rushville this year, will be a new departure.

Instead of the Daily Republican conducting a separate Santa Claus fund or a Good Fellowship League and the Salvation Army going ahead with its Christmas work as usual, the two efforts will be combined as the Daily Republican-Salvation Army Christmas fund, which will endeavor to meet the Christmas needs of the whole community.

A committee on general arrangements has been appointed and represents the various phases of activity in Rushville. Women who in the past have made the Republican's Santa Claus fund a success by their tireless work, have consented to work with the new organization and make it even more beneficial.

All committees which have been appointed at the preliminary meetings will meet in the sheriff's office in the court house at 3:30 o'clock Monday afternoon.

The committee on general arrangements is composed of the following: Governor's Representative, the Salvation Army, chairman: L. L. Allen, representing the business men of the city; Judge Will M. Sparks representing the professional men; the Rev. J. T. Aiken, president of the Rushville Ministerial association; Carl Gunning, exalted ruler of the Elks, representing the fraternal orders, and J. H. Scholl, superintendent of the public schools. Envoy Frank Gipsen of the Salvation Army has been named treasurer of the fund.

Mrs. A. L. Stewart has been appointed general chairman of the committee on investigation, with the following district chairmen who will appoint their own assistants; North of Fifth street and east of Main, Mrs. Jane T. Kincaid; north of Fifth and west of Main, Mrs. Frank Gipsen; south of Fifth and west of Main, Mrs. Lila Retherford; south

SHRINER EXODUS TO OFFICIAL DIVAN TODAY

Score or More go to Indianapolis
For Festivities Which Open at
Six O'clock

A CLASS OF AT LEAST 325

There was a general exodus of Rush county Shriners from Indianapolis today for the official divan of Murat Temples, Nobles of the Mystic Shrine, which will begin this evening. It was estimated by one Shriner that this county would be represented by at least a score and probably more will attend. The class will number as many as 325 and possibly 350.

An elaborate program has been prepared under the caption "Bagdad Folies of 1919" and it is understood some new stunts and entertainment features will be offered for the edification of the nobles of the order.

A buffet luncheon will be served in the late afternoon and the fireworks are scheduled to go off at 6 o'clock. From then on the sons of the desert will be extremely busy. Robert T. Himes of this city, was one of the class of 268 which took the Scottish Rite at the semi-annual convocation, which closed in Indianapolis last night.

of Fifth and east of Main, Mrs. T. M. Green.

The committee on the purchasing of gifts for children and provisions is as follows: Mrs. J. A. Tench, chairman; Mrs. Retherford, Mrs. Kincaid, Mrs. Gipson, Mrs. Ed Crosby, Mrs. Stewart and Capt. Tench. The aim of the Republican's Santa Claus fund always was to provide Christmas cheer for the children; to see that no child's Christmas day was cheerless, and the work of providing baskets of food for Christmas dinner was always done by the Salvation Army. Both branches of the work will thus come under one head with the present organization, and no child will be missed and no

worthy family will be allowed to go hungry on Christmas day.

Many plans which are yet to be worked out, will be discussed at the meeting Monday afternoon and it is hoped that every person appointed on a committee will be able to attend.

Beginning today, the Daily Republican will accept cash contributions for the fund. The Salvation Army will have a kettle on the street, as has been its custom, but no house-to-house solicitation will be made for donations because the late Home Service fund was supposed to cover Christmas needs. The local branch of the Army will receive an allotment from the Home Service fund for Christmas work, which will be applied to the combined fund.

An effort will be made to obtain centrally located headquarters so that volunteer gifts of food to help fill the baskets may be made.

GET A CONTRACT FOR
\$5,000 IN BRUSHES

Children in the American Orphanage
at Belgrad Under Ten Years old
Are to do The Work.

Belgrad (By Mail)—The children in an American orphanage here have just received a contract from a Danube steamship line for \$5,000, worth of brushes. All of the work is done by children under ten years of age in the school room.

This orphanage was established some months ago by Miss Clara Lewis, of Chippewa Falls, Wis., head of the war orphans bureau of the Red Cross here. It is a model orphanage established not only to care for about 300 children, but to serve as a model for many that the Serbian Government is planning to build Serbian orphan work. Brush making previously, but it had about 300,000 orphans.

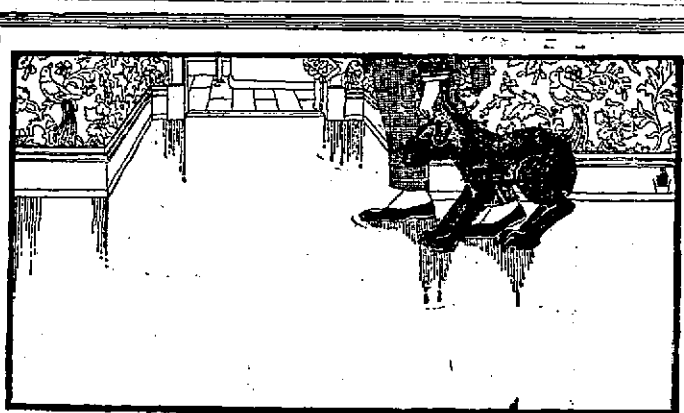

All the Children are taught vocations, which is quite a new idea in Serbian orphan work. Brush making is one of the principle vocations taught and the children have shown such aptitude that they have received a number of contracts, in addition to the latest one for \$5,000. The profits, of course, go toward maintaining the home, and very shortly they will be sufficient to make the home self-sustaining.

One way Miss Lewis interested the children was to take them all out to a place on the Danube, where the right kind of brush-grasses grew, and to have a picnic lunch after the grasses were gathered.

Union county superintendent. The resolutions were as follows:

- 1—That we appreciate the value of such conferences as these and command the state department in calling the same and recommend that a permanent organization be perfected for this purpose and that they be carried into the counties of this district.
- 2—That a distinct advantage may result from the state department's recommendation of suitable material equipment for rural schools.
- 3—That the progress of education be less interfered with by the state tax board as regards buildings, equipment and provision of teachers.
- 4—That we urge consolidation of rural schools as the most effective means of improving the rural school situation, but disapprove the practice of divided effort in this respect in the same township except where conditions warrant.
- 5—That we believe more value should be placed upon long and successful experience as to qualification for high school teachers and recommend this to the state board of education.
- 6—That we favor a law prohibiting the jumping of contracts on the part of teachers.

LET THESE COLUMNS BE YOUR GUIDE

FOOL PROOF

THE REASON WHY

When the Litchfield Company, the builders of "RUSHVILLE SPECIAL" Spreader, began making machinery way back in early history, most any old thing that would stand on four wheels and follow the horses could "pass muster." Today things are different. In building the "RUSHVILLE SPECIAL" Spreader for us, this company has made it as near fool proof as possible, not because our customers are more in need of this kind of a machine than others, but because we WANT THE BEST.

About fifteen to twenty years ago any spreader that didn't break down more than two or three times a day was considered a pretty good machine, and a spreader that didn't need "doctoring" more than once a day was something to brag about. Today the "RUSHVILLE SPECIAL" Spreader is hardly living up to its reputation if anything happens to it for which it is at fault, once a year—possibly once in five years. We call this pretty near fool proof.

It has been customary for dealers to lay in a good supply of repairs for the manure spreader they handle. When we took agency for the "RUSHVILLE SPECIAL" Spreader, our company advised that repairs would be promptly available, but that we would have very little business along this line. We have discovered the truth of this statement, as practically no repairs are needed.

You can't afford to delay. Now is the time to buy. Don't cheat yourself by cheating your farm when you fail to have the best service, the best spreader on earth can give it. Come in and let us prove to your satisfaction the truth of our assertions.

WAIT FOR A VESSEL BOUND FOR RUSSIA
Alexander Berkman and Emma Goldman, Anarchists, Are Taken From Mainland Today

SURRENDERED BY COUNSEL

New York, Dec. 5.—Alexander Berkman and Emma Goldman, his companion in thirty years of anarchistic activities, were sent from the mainland of the United States today, probably never to return.

Ordered deported for urging overthrow of the government by violence they were taken by ferry from the tip end of Manhattan to the immigration station at Ellis island, where they will be held until a ship is available to send them to Russia, whence they came. Their liberty on bail expired when they were surrendered by their counsel at the demand of the department of labor.

Berkman's career in America came to an end while Henry Clay Frick, whom he once attempted to assassinate was being buried in Pittsburgh. A stone's throw from the Statue of Liberty, the two most notorious anarchists in this country probably will spend their remaining days in the United States of which Berkman never became a citizen.

NEW STRIKE ANGLE SERIOUS FOR STATE

Situation in Coal Mine Tieup Complicated When Engineers and Pumpers Quit

VIOLATION OF UNION ORDER

Terre Haute, Ind., Dec. 5.—Injection of a strike by hoisting engineers, fire men and pumpers in the nation-wide strike of union coal miners is adding to the acuteness of the situation in Indiana.

Concern about this new angle of the coal strike was expressed after it became known here that an organizer of the union was alleged to be advising men in the Clinton, Terre Haute and Bicknell fields to quit their work, to which they had been assigned in order that no damage would be caused in the mines. Workers at several of the mines have abandoned their posts, operators reported.

It is pointed out that when engineers, firemen and pumpers leave their jobs at the mines they are not only violating the contract between the United Mine Workers of America, the miners' organization, and the operators, but also are disobeying orders of the United Mine Workers officers.

No Headway Made in Strike

It has been more than a month now since the bituminous miners walked out on strike and the two factions seem no nearer together than they were the first of November.

Everybody knew that the threatened strike could not be avoided. The officials of the government were aware of that fact and of the disaster that would be visited upon the railroads and industries generally. But nothing was done. The usual conferences were held, both sides to the controversy were urged to compromise their indifference, and the president issued an appeal to the miners to continue at their work which, in its practical effect, was not worth the paper on which it was written. No affirmative action whatever was taken by the government to prevent the calamity.

"The strike came and for a month the country has suffered from its blighting effect. To date the executive department of the government has done nothing but talk and issue advice so far as taking steps to resume coal production is concerned, although certain measures have been adopted for conserving the supply on hand. The judicial department has issued an injunction against the use of the huge benefit fund of the miners and ordering the officers of the Mine Workers to rescind the strike order. That court mandate has been complied with, but with no more effect on the production of coal than if the federal judge had remained silent.

"The situation resolves itself into this: For two long months the administration has been confronted with the certainty or the actuality of a nation-wide coal strike with all its attendant evils.

The bulldog's beauty lies in his grit.

The bluffer's real trouble comes when he reaches his limit.

You can't measure a man's industry by the noise he makes while working.

Some people think it a great distinction to be operated on in a hospital.

To get much in the way of wages, you must be able to do much in the way of work.

Hez Heck says: "Handsome men and beautiful women seldom amount to much above the eyes."

attendant evils. During all of that time not one single effective step has been taken to aid the people, the maintenance of whose welfare furnishes the only reason for the government's existence. The future holds no hope of a settlement so far as any affirmative action by the officials at Washington is concerned. Discussion follows discussion; the Cabinet holds all-day meetings and adjourns in a wrangle with nothing accomplished.

Garfield has evolved a plan that appears to have many of the elements of sanity, but nobody else in authority favors it. At best it is only advice as to wage scales, with no means for its enforcement even if adopted, and making no provision for the actual mining of coal. The government has failed to function. The people are now merely inconvenienced: soon they will be freezing and starving, and that means riots and more determined efforts than ever at the establishment of anarchy. Unless the crowd with whom the president has surrounded himself at Washington awake to their duty and perform it with resolution the succeeding weeks will be a period of peril to these United States."

By what right does McAdoo inject himself into the coal controversy? He has nothing to tell but "old stuff". The country had been informed and had reason to believe that the future mental gymnastics of the ex-secretary had been contracted for in advance by Charlie Chaplin, et al.

If we don't kick the Reds out it is only a question of time when they will do the kicking. The government and congress might just as well face the inevitable now as later.

We may, at least, indulge in an occasional smile without having to climb into the skies to estimate the cost.

At the hour of hitting the ball the good old U. S. A. is still profiting along, with never a pause in sight.

Indiana Woman Tells of Experience

Laporte, Ind.—"Eighteen years ago I first became acquainted with Dr. Pierce's Favorite Prescription. I was during expectancy and I was very frail and delicate. But the 'Favorite Prescription' strengthened me and I had a comparatively easy time. My baby was a strong, healthy girl and has always been fine and healthy. For the expectant mother I think there is nothing so equal."

Could Not Sleep

La Fayette, Ind.—"A short time ago I was in a terribly nervous condition so that I could not sleep at night. I would have simply drifted off to sleep. My doctor recommended Dr. Pierce's Favorite Prescription to me and it helped me wonderfully. The first half bottle cured me of my nervousness and made me able to sleep at night just as quiet as a child. It also relieved me of periodical suffering which used to bother me a great deal. Dr. Pierce's Favorite Prescription is a grand tonic for nervous people and I don't hesitate to recommend it."
—MRS. CHAR. COLLEMAN, 401 Perry St.

Franklin, Ind.—"When living in Kirkwood, Mo., I took Dr. Pierce's Favorite Prescription. I was always complaining. Nervousness troubled me, caused I think, by women's weakness. The medicine was recommended to me and I thought I would try it. I found it most beneficial. It certainly cured me of my nervousness and made me feel like a new woman. I can't say enough for it."

4 NATIONS HURT BY AUTO ACCIDENT

Three Hundred Cars of French Merchandise Piled up on Four Switches of Railroad Yards

TEN AMERICANS MAROONED

Soldier Uses Telegraph Line to Repair Steering Gear—Cuts Off Wire Communication

Szabadka, Slavonia, (By Mail)—When a wheezing little automobile of American make, driven by a Serbian soldier, broke down on a country road four miles from here, it started an international tangle which rolled up until it had the diplomats of four countries worried.

Here are some of the things that began to happen:

"Three hundred cars of French merchandise bound for Roumania piled up on the four switches of the railroad yards here and congested things until not a wheel could move.

A Red Cross supply train of thirty cars, bound for Bucharest, came up behind the French trains and completed the tie-up of communication.

Ten Americans were marooned for nine days on board the Red Cross train.

Roumania merchants who were relying on the prompt delivery of the French goods sent a special train from Bucharest to investigate the delay.

Szabadka, an important town on the frontier between Hungary and Serbia, was cut off from all communications with the outside world.

The Serbian soldier who was the innocent cause of all this trouble was driving his car merrily northward one day when the steering gear went wrong. He stopped, found the cause of the difficulty and decided that he needed a piece of stout wire to repair the damage. He reached up to the long-hanging, single-wire telegraph line and cut off a generous section. Having fixed his car he drove blithely on. The wire gave out presently, and he renewed it, twice, three, four or five times, from the telegraph line beside the road.

Meanwhile the trains of French merchandise had begun arriving at Szabadka. Official sanction was necessary for the cars to proceed. The frontier officials framed the proper sort of telegram, and it was duly countersigned and presented to the operator. He reported that the wire was "not working". So the frontier officials decided to wait until it began to work.

They waited two days, while more and more trains drew into the congested yards, Szabadka was cut off from wire communication. Mails go only once a week, and then only if trains are running.

The telegraph officials finally decided to send out a line-repairing party. The party returned after another day's delay with the announcement that so many breaks had been found that their supply of spare wire had given out.

Meanwhile congestion in the yards increased and the appeals from the French conveyors, the American conveyors and the Roumanian merchants, became more urgent. It was a full week, however, before the wires had finally been restored and the official risks obtained. By that time the blockade had become so complicated that it will probably take a month to put Szabadka back on a normal basis.

She was a confiding, yet fairly shrewd, old maiden lady and no oil well salesman had parted her from some forty thousand dollars left her by an admirable daddy. When reaching seventy she sent for an attorney and said to him:

"I'm somewhat worried as to how to dispose of my money. I want to explain—"

The attorney, scenting a fee, was all smiles and affability. "Tut! Tut! Worry not! I've known you—and you've known me—these many years. Just leave it to me, my dear Margaret—"

"Well," said the old lady, with a sigh, "I might as well, you'd get it all no matter how I willed it."

A Layman's Message

"Human management of the universe is failing. Without divine intervention the world and its people will plunge into chaos. . . . The people of America must go down on their knees and ask for divine aid. In prayer alone exists hope. . . . There has been too little spirituality in our activities. Our bodies have grown while our souls have shrunk. Now, as clouds darken around us, our physical sight grows dim, and our spiritual vision increases."

H. S. PLAYS SPICELAND; FAIRVIEW TO BE HERE

High School Teams go to Spiceland and Fairview Team Plays Independents Here Tonight

COLUMBUS HERE SATURDAY

Two basketball games are scheduled for tonight in which local teams will participate. The high school five will journey to Spiceland, where they will play the fast team from the Spiceland Academy. Both the first and second teams will play tonight, and several rooters are planning on making the trip. Spiceland has a team of fast players and will be a hard bunch to beat, especially on their own floor.

The local independent team will play here tonight at eight o'clock at the Modern Appliance building, and will have as their opposition, the Fairview Athletic Club, which is composed of former stars, that have played together as a team for several years. The local independent team has been going good, and is so far this season undefeated. The building will be well lighted and heated.

Tomorrow night the team from

Columbus, Ind., will play the local high school team at the Graham Annex gymnasium, and according to reports from Columbus, the team thinks they will have an easy time in winning. Columbus plays at North Vernon tonight and will come here tomorrow for the game here. The locals are also confident of winning.

MANILLA VS. BOGGSTOWN

The Manilla high school basketball team will play the Boggstown high school at Manilla tonight. The Boggstown team is a fast bunch of players and recently held the Shelbyville team to a close score on the Shelbyville floor. Manilla is also playing good ball this year, and have won most of their games, defeating Morristown, Arlington and Connerville.

Boots or Anklets?— Let Tootsies Choose

By MARGARET ROHE
(Written for United Press.)

What boots if your ankle's fine
If you must go and boot it.
This is Dame Fashion's last decree
But there'll be lots who'll moot it.
New York, Dec. 5.—Incoming ships
are bringing heaps of exciting things
to our shores these days, besides
royalties and bolsheviki. Not the
least, of these were worn by two
dashing American matrons when
they put their best foot foremost
down the gangplanks the other day.
One wore an alluring golden anklet
that gleamed seductively through
the transparent mesh of her gossamer
silk hose and the other swag-
gered down in a dashing little pair
of honest to goodness regular Rus-
sian ballet boots.

You can take your choice between
these two divergent styles according
to your temperament and the turn
of your ankle. It's always well to
remember, however, that where
there's a well turned ankle there's
many a well turned head. And it
does seem such a wicked waste of
short skirts, sheer hosiery and slender
shanks to go and drag boots on
the scene.

Nevertheless there be many who

are doing it—some because they
follow zealously every vagary of
the mode whether it means barring
their backs or booting their tootsies,
others (and naturally all booters de-
votees rest under this suspicion)
because their ankle lines, or rather
humps, make boots the lesser of two
evils.

There are lots of boot styles to
choose from when it comes to color
schemes and ornamentation, though the
general cut of all the boots is about
the same. All over patent kid ones
are smart and those of patent kid
lowers with light kid uppers, either
grey beige or tan have designs of the
black patent kid on their turn over
cuffs at their tops.

All grey or light tan boots of
suede are softer and more form-fit-
ting, as it were, and a few sport tas-
sels, fur trimmings and even go the
elaborate limit of a bit of hand tool-
ing here and there like an edition de
luxe.

We have been threatened with this
boot fad ere this but it didn't stick
sufficiently to make a deep boot
print on the sands of Fashion, or a
deep impression on feminine favor.
The very fact that the price of leath-
er is so high now-a-days as to
almost make these high boots prohibi-
tive except to the most expensive
and exclusive trade may put the
stamp on approval on them now that
they lacked when the hot polloi

would like to be booted with the
best of them.

The high cost of booting makes
rather for the anklet as a more po-
pular foot-adornment of the season,
however, and especially does it go
well with the oriental trouser effects
so prevalent among our best skirts
these days. The skirts puffed in
around the hem do their worst to
simulate haremlike effects and
there is a return to this fashion of
a season ago that bids fair to exceed
even the success of its debut. In that
wicked Paris more blatantly bifur-
cated garments have been flaunted in
the face of convention and if this
sort of thing keeps on and up lovely
woman may be able to tuck her
trousers in the tops of her boots like
a regular wildwestern fellow when
she goes to cast her vote at the next
Presidential election, by heck.

JURY DISAGREES IN DAMAGE SUIT

county office.
Four attempts were made to bring
the case to trial in Shelbyville, and
in each instance the case was con-
tinued, either on account of the
illness of the defendant or some of
his relatives. It was set for trial
December 8, and a motion was filed
for a change of venue, it then being
sent here.

The grand jury indictment charges
Collins with being short a little over
\$3,000 while engaged as county
clerk. The case has been the cause
of much comment in Shelby county,
and a change was taken as the de-
fendant's attorneys feared that he
could not be given a fair and just
trial in his home county.

Judgment was found in the sum
of \$80.30 for John W. Cobee against
Florence I. Duke, as administratrix
of the estate of Walter Duke. The
amount was set forth as on a claim,
and the full amount asked for in the
complaint was granted the plaintiff.

Miner Forced to Give Up Work

Couldn't Raise Hand as High as His Head—Gains Twenty-five Pounds.

I was in such an awful condition from my twelve years of troubles that I had to quit work entirely, but now since I have taken Taulac, I have gone back to my work and never felt better in my whole life," was the unusual statement made by William A. Cruick-hank, of Bartonville, Ill., recently.

"You see, the dampness of the mine had given me the very worst kind of rheumatism," he continued, "that had been troubling me for about twelve years. My elbows hurt me so bad that I couldn't raise my arm as high as my head, and when I sat down to the table I could hardly lift a cup of coffee to my mouth, and my arms and elbows pained me so bad I had to keep them bandaged in all sorts of applications to try and get some relief so I could sleep a little at night. My legs also gave me a lot of trouble and at times I could hardly get about, they hurt me so bad. And this was not all, my stomach was all out of order and I was never able to eat anything and enjoy it for thinking about the pains and heaving that would bother me for hours after every meal. I didn't have any appetite and fell off in weight terribly, and went about all the time with a dull heavy feeling about me.

"This was my condition when I gave up mining coal for it was a case of give up or die, and I guess I would have still been in this shape if it hadn't been for a friend who told me about Taulac, and got me to take it. Well, sir, I hadn't taken but a few doses before I could just feel the trouble leaving me and my appetite coming back. And now I haven't a trace of rheumatism in my whole body and I don't believe any man can look at me and tell that I ever had it in my life. I am eating anything set before me and digesting it without the least bit of trouble, and I never have that dull, heavy feeling any more. I sleep fine at night, have been back at work quite a while and am able to mine as much coal as ever in my life. When I started taking Taulac I weighed about one hundred and eighteen pounds and now I tip the scales at one hundred and fifty-three, and have never felt better before."

Taulac is sold in Rushville by F. B. Johnson & Co.; in Milroy by Dallas Copper; in Manilla by Geo. J. Inlow, and Arlington by Mrs. L. T. Davis.—(Adv.)

How Acme Worm Bouncer Expells Worms

When the hogs and pigs eat anything the Free Intestinal worms do not like, they lay dormant. The hog which is fed **ACME WORM BOUNCER** in the SELF FEEDER eats a little—several times a day. The **WORM BOUNCER** goes into the stomach and intestines—STRAIGHT. The time comes when the worm must eat and when he does, the **ACME WORM BOUNCER** PARALYZES the worm—he then must let go—and in that manner the **ACME WORM BOUNCER** expells the worms and **EXPILLS THEM ALIVE** from 5 to 7 days after you commence to feed **ACME WORM BOUNCER**.

ACME WORM BOUNCER is fed with perfect safety to all pregnant animals, whereas any remedy that kills the worms in the **INTESTINES AND STOMACH** is very injurious to the animal and very dangerous to use.

IS SOWING SEEDS OF PROHIBITION

Huns Think America's Example is One She Ought to Follow With Respect to Liquor

RECENTLY HELD CONVENTION.

Dr. Newman Calls on Nation to Make Prohibition an Issue to Relieve Food Situation

By CARL D. GROAT
(U. P. Staff Correspondent.)

Berlin. (By Mail)—The first seeds for national prohibition in Germany are now being sown. America's example is held up by many thinking Germans as one Germany ought to follow with respect to intoxicating liquor.

And while Germany so far hasn't any campaign against alcohol such as England is now experiencing, there are distinct signs that the thoughtful men of the nation are beginning to realize that "schnapps" could disappear from Germany advantageously from a standpoint of food conservation, health and finances.

True, this thought is slow in percolating. But, it is significant that recently a prohibition convention was held here. And just now in the magazine "Die Glocke", a serious paper dealing with social subjects, appears an article strongly urging the nation to follow America's example.

"The procedure of the rich and powerful United States of America in instituting prohibition," wrote Dr. Ernest Neumann, "which one here now no longer passes over with a smile or a stupid joke, should give us food for thought."

The pre-war expenditure of Germany for beer, brandy and wine amounted to 3,510,000,000 marks a year according to Neumann's figures. This amount has been altered by wartime regulations reducing the consumption of alcoholic beverages, but still the liquor business, Neumann adds, "takes millions of centers of grapes, fruit, grain and potatoes which could be employed for nutrition purposes."

He called on all political parties to make prohibition an issue inasmuch as this would relieve the food situation, help Germany in paying her war debts, and assist materially in reconstructing the country mentally, morally and physically. If believed a complete prohibition on mild beer were permitted, he said he strong drinks would be overwhelmingly adopted. "Such adoption," he concluded, "would show all the world that we do not merely talk earnestly but can also act earnestly."

coin of realm, to be sure, but as silver in bulk. In other words silver is quoted on the market at \$1.34 an ounce, whereas three years or so ago it was quoted at fifty cents.

The price of diamonds has advanced in price in the past few years, and is still advancing. However, jewelry other than diamonds and silver has advanced in price but little in the past few years, has advanced much less, in fact, than have other lines of merchandise and local dealers say there is a big demand for jewelry at this time.

Diamonds and silver jewelry, the local dealers say, are likewise in big demand, notwithstanding the advance in prices. Local dealers say that the farmers are ready and heavy buyers of jewelry and that in fact they are buying as much jewelry as are the city folk and are buying much of the more valuable and higher priced jewelry, and why not? Certainly the farmers are richly deserving of the best there is to be had for do not they practically feed and clothe the world and should not

the world in return bedeck them with jewels, etc?

NEW TREATMENT THAT KNO KS RHEUMATISM

75c Box Free to Any Sufferer

Up in Syracuse, N. Y., a treatment for rheumatism has been found that hundreds of users say is a wonder, reporting cases that seem little short of miraculous. Just a few treatments even in the very worst cases seem to accomplish wonders even after other remedies have failed entirely. It seems to neutralize the uric acid and lime salt deposits in the blood, driving all the poisonous clogging waste from the system. Soreness, pain, stiffness, swelling just seem to melt away and vanish.

The treatment first introduced by Mr. Delano is so good that its owner wants everybody that suffers from rheumatism or who has a friend so afflicted, to get a free 75c package from him to prove just what it will do in every case before a penny is spent. Mr. Delano says: "To prove that the Delano treatment will positively overcome rheumatism, no matter how severe, stubborn or long standing the case, and even after all other treatments have failed, I will, if you have never previously used the treatment, send you a full size 75c package free if you will just cut out this notice and send it with your name and address with 10c to help pay postage and distribution expense to me personally."

F. H. Delano, 1338 Griffin Square Bldg., Syracuse, N. Y. I can send only one Free Package to an address.—(Adv.)

her mother's tea guests, she is sent to a finishing school, where Gloria speedily gets into trouble. In the midst of an imitation of the prim spinster principal, that lady enters the scene.

Gloria escapes by the window, seeking refuge in an auto under which Richard Grant is doing some repairing. Miss Purcell and her flock pursue and the culprit is returned to her bed.

The next day Gloria runs away from school. At home she finds her sister perturbed because the maid has left and father is bringing a guest for dinner. With the aid of burnt cork, the "angel child" blacks herself beyond recognition and performs the maid's duties as no real maid ever did before. In the guest she recognizes her would-be rescuer of the night before. By her pranks she is recognized by her mother and is later introduced to Richard.

Overhearing a conversation between her father and Richards, she learns of the disappearance of a letter that contained evidence to expose a grifter, and recalls having wrapped some candy in a letter on her father's desk, it later falling into the hands of the daughter of the man incriminated, she in turn giving it to her father.

How Gloria recovers the letter and wins the heart of Richard brings "Angel Child," to an exciting, yet humorous finish. Kathleen Clifford is ideally suited to the role of the energetic Gloria and Fred Church is a handsome leading man. This Plaza-Hodkinson picture will be shown at the Mystic Theatre next Saturday.

Besides this picture, there will also be on the program a Harold Lloyd comedy, "The Marathon."

"The Sneak" at Princess

Jealously glows in the heart of every man, but in the gipsy it is like a roaring fire. Gladys Brockwell in "The Sneak" gets a taste of gipsy jealousy which leads to hand-to-hand fights with knives and end-gels. This dramatic picture of the out-of-doors will be shown at the Princess tomorrow night. In addition to its tremendous plot, the photoplay is a masterpiece of scenic effect, for which credit is due to Edward J. LeSaint, the director.

The play tells the story of Rhona, the gipsy princess, who poses for an artist and thus incurs the jealousy of her affianced. The machinations of a jealous rival have brought her to this studio. The sequel to this plotting is absorbing in its heart-interest and tragic in its development. Miss Brockwell has never been seen to better advantage than in "The Sneak."

THE UNIVERSAL CAR

Will Your Ford Go South?

Ford Motor Company has sufficient orders on hand from the South to take care of their entire production for the next four months, and have decided no dealer will be shipped cars this Winter except against bonafide orders. No "stocking" of cars for Spring business will be permitted.

Our Branch, however, assures us shipment of every car for which we DO have a bona-fide order. More business was offered us last Summer than we could possibly handle. The only way we can hope to satisfy the demand for Ford cars in the Spring is to deliver cars all through the Winter. Prompt delivery can be made—it is impossible in the Spring.

Over 3,500,000 cars built on the same Chassis attest the worth of the Ford car. It outsells every other car because IT IS A BETTER CAR.

Don't let YOUR Ford go South, but join the throng of satisfied owners.

JAIL CELL WILL CURE "STUBBORN" HUSBAND

Indianapolis Probation Officer Finds That it is a Good Way to Make Spouse Provide

76 MEN TOOK THE "CURE"

Indianapolis, Ind., Dec. 5.—A cell in a jail is the best remedy for curing "stubbornness" of a husband who fails to make proper provisions for his wife and children.

This is the opinion of R. D. Thomas, adult probation officer in the Indianapolis courts. Thomas has handled hundreds of cases of stubborn husbands during the five years since he began his work with the department.

"As soon as a stubborn husband is in jail a reform wave starts at once," Thomas asserted. "Then he generally discovers that he loves his wife and he pleads for another chance. The husband then generally follows this up with letters to me and his wife asking for a parole. They promise anything while they are in jail."

Seventy-six men sent to jail during Thomas' term of office have become reconciled to their wives, bought homes on the installment plan and are living a life of domesticity today, Thomas said.

A marriage license has been issued to Elmer Hendricks and Mrs. Bertha Moxingo, both being residents of this city.

Once a white turkey, fond of his own way, Wouldn't ask the wise ones where to go or stay. He said: "I'm not a baby. Here I am full grown. Surely, I am big enough to run around alone!" Off he went; but somebody, hiding, saw him pass. Soon like snow his feathers SCATTERED o'er the grass, So he made a supper for A SLY OLD MINK, CAUSE he was so headstrong that he wouldn't think.

—Apologies to Phoebe Cary.

—What is A SLY OLD MINK, in feeding? Why, too much corn, of course. Get away from too much corn as it sucks your profits away and scatters your efforts.

Berlin—Marriage is being commercialized. Reports shows that weddings there are now accompanied by a public marriage ball at so much per admission, plus a liberal wedding present—in cash.

HEARTBURN

Caused by

Acid-Stomach

That bitter heartburn, belching, food-repeating, indigestion, bloating after eating, do you? So get acid-stomach. But they are only first symptoms—danger signals to warn you of awful troubles if not stopped. Headache, biliousness, rheumatism, sciatica, that tired, listless feeling, lack of energy, dizziness, insomnia, even cancer and ulcers of the intestines and many other ailments are traceable to ACID-STOMACH.

Thousands—yes, millions—of people who ought to be well and strong are mere weaklings because of acid-stomach. They really starve in the midst of plenty because they do not get enough strength and vitality from the food they eat.

Take EATONIC and give your stomach a chance to do its work right. Make it strong, cool, sweet and comfortable. EATONIC brings quick relief for heartburn, belching, indigestion and other stomach troubles. Improves digestion—helps you get full strength from your food. Thousands say EATONIC is the most wonderful stomach remedy in the world. Brought them relief when everything else failed.

Our best testimonial is what EATONIC will do for you. So get a big 50c box of EATONIC today from your druggist, use it five days—if you're not pleased, return it and get your money back.

DECORATORS FINISH WORK

Interior of Court House Now Resembles New Building

The interior decorators who have been working for several months in the court house, today completed the job. It was a big task to refinish the walls, as it was necessary to wash them first, then apply several coats of paint. Every room and corridor in the building was re-decorated and all the woodwork was re-varnished so that the interior of the court house resembles a new building. The assembly room was the last room to be redecorated. Huge Ranges of Indianapolis had the contract.

Symbols of Service

FROM your seat in the train as you journey through the Middle West, you see at almost every station you pass the great, white storage tanks of the Standard Oil Company (Indiana). These bulk stations are maintained to insure prompt delivery of petroleum products to the people in that community. To them these tanks are Symbols of Service.

As you motor over the highways and byways of the countryside, you pass the dark green tank wagons of the Standard Oil Company (Indiana) busy delivering petroleum products from the bulk stations to the farmer's tank. To the farmer these are Symbols of Service.

At convenient points in city, town and hamlet you find attractive service stations, beautifying ugly corners. These are maintained for your convenience and to you they are Symbols of Service.

You stop at a railroad crossing to let a train pass. In it are a number of tank cars, hurrying forth from the Standard Oil Company (Indiana) refineries to replenish the stocks at bulk stations. Aside from their usefulness as carriers, these also are Symbols of Service.

The Standard Oil Company (Indiana) is a service organization, and wherever you may see its name or a piece of its equipment, you see a Symbol of the Service it is striving to give in maintaining its position as a public servant doing its full duty.

Build In These Conveniences Yourself

Why not have a bathroom? A Beaver Board partition will provide the proper space—and without muss and litter.

This is just one of the handy uses you'll find for Beaver Board about the farm. These knoxx, crackless panels of manufactured lumber are just as good for new building as they are for remodeling and repairing.

You can easily do the work yourself. All that is necessary is hammer, saw and nails. You are sure of a permanent job, because these sturdy panels cannot warp or buckle. An exclusive "Sealtite" process of surface sealing and sizing protects them from weather, moisture, or climatic changes.

Next time you are in town, call and see these convenient lumber panels for yourself. Or phone or write us for samples, prices, and estimates.

NEW ENGLAND HUNTER BUSY

Many Ex-Soldiers Bring in Big Game in Eastern States

(By United Press.)

Boston, Dec. 5.—Hundreds of former soldiers are having their first thrills of hunting in the woods and mountains of New England this season, according to game wardens and license clerks.

These officials say that with their knowledge of firearms gained in the army, many men who never hunted before are enthusiastically on the trail of game this year. The increase in the number of hunters and their skill in handling guns is reflected in the unusually large kill of deer, moose and bears, the haul being particularly heavy in Northern Maine and New Hampshire.

The Portuguese wineries use only the finest Russian oak for wine casks.

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply. He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Pour three-quarters of an ounce of Mentholized Arcine into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arcine in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

What's Bone Dry —What's Not?

Not every storage battery that is called "bone dry" is really shipped and stored in bone-dry condition.

Some have solution put in at the factory, and poured out again before shipment.

Some are shipped with plates dry, and insulation wet.

These batteries are not *bone dry*.

Come in and get straight from us the story of Willard Threaded Rubber Insulation, the only form of insulation that permits of bone-dry shipment and storage of automobile starting, lighting and ignition batteries.

Stop!

Don't discard that damaged casing until we have told you that it is beyond repair.

We have convinced a lot of people that vulcanizing is both practical and economical, after having saved them several dollars in miles they never expected to get out of the blown out tire.

Give us a chance to show you the next time you have a blow-out or any other damage to your tires.

FOOTBALL TEAM FORMER SOLDIERS

Princeton Team Changes Soldiers
Uniforms for "Grid" Outfit and
Wade Into it.

PERSONEL OF THE TEAM.

Each and Every Member and Even
Substitutes Played in the Big
Game of War.

By HENRY L. FARRELL
(U. P. Staff Correspondent.)

New York, Dec. 5.—Princeton has the king fighting team of the season. There's something extraordinary in an eleven that tied Harvard and beat Yale after it had been discouraged, disheartened and partially dishonored by losses to Colgate and West Virginia.

The punch of the Tiger in its most crucial games, the spirit that made it fight against tremendous odds of weight and prestige, has an element in it akin to the "Yankee stuff" that walloped the Kaiser.

Every one of those Tigers was in Uncle Sam's lineup in the biggest game of history. Several of them stepped out of a uniform with gold stripes on each arm into the grid-iron togs of Old Nassau.

Hank McGraw, captain of the team, was a major in the infantry and lost a finger on his left hand during his "hitch" at the front. He was commissioned a second lieutenant in the first officer's training camp and was among the first across. Two promotions for meritorious conduct placed a bronze leaf on his shoulder straps.

Pully Bigler was an ensign in naval aviation and Williams was top sergeant in the Princeton unit, Base Hospital No. 8.

Dickinson and Mike Callahan were in the naval reserves. Parisette served as a first lieutenant in the Three Hundred and Twelfth Infantry and Stan Keck drove an ambulance in one of the Princeton units. Lourie and Garrity were in the naval reserves. Jack Strubing did "two bit" first with the American Legion and later with the U. S. Marines. Maury Trimble was a naval aviator.

On down through the list including most of the substitutes, the Tigers had a part in the game that gave birth in them the "never lose" spirit.

Several of the Tigers are all around men. Dickinson is a letter man on the track team handling the hammer and weight events. He is also the center on the basketball team.

Garrity is also a baseball star, being the captain and third baseman of the freshman team. Lourie is a star track man in the dash events. Jack Strubing is the star centerfielder of the baseball nine.

For Bad Breath

Coated Tongue, Bilioumess, Sour Stomach, Sick Headache, Bloating, Gas, Constipation, or other result of indigestion, no remedy is more highly recommended than

FOLEY CATHARTIC TABLETS

They cause no griping or nausea. Cleanse the bowels, sweeten the stomach and benefit the liver. Never disappoint.

Mrs. Elizabeth Simpson, 137 So. Main St., So. Norwalk, Conn. "I can testify that Foley Cathartic Tablets are wonderful."

The Efficiency of the Chalmers

SO much favorable comment has been made on the engine of the Hot Spot Chalmers that we are inclined to feel that many overlooked the other great essentials of this magnificent car.

There's 117 inches of wheel-base in a Hot Spot Chalmers and every inch denotes high efficiency.

Radiator to rear axle, it indicates perfect design, superior material, rare skill in workmanship, and an attention to detail that lifts it far

above competition in price.

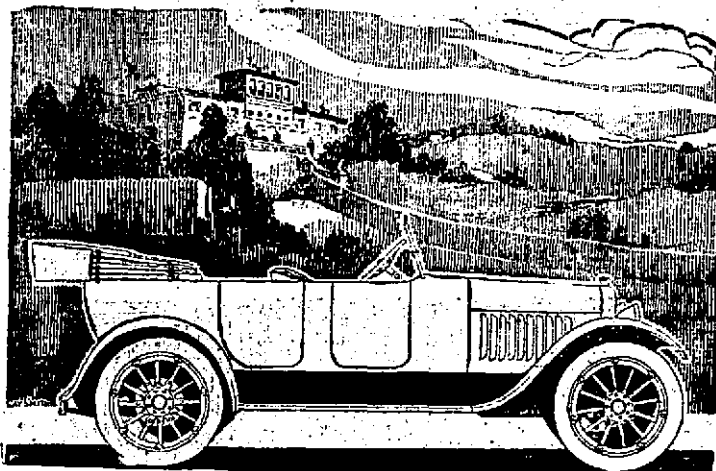

Service department records prove this high efficiency in a Chalmers by figures; it averages in cost to owners less than one percent per year of the list price of the car for repair parts.

As a matter of fact once an owner's license plate is bolted on the Hot Spot Chalmers the car seldom returns for service.

Give it gas, oil, grease, water, and fair treatment and it'll respond like the fine "creature of steel" it is.

HALF HOLIDAY GIVEN THESE LUCKY MARINES

Major at Quantico Cantonment Says
Half Holiday is Coming to
Each Marine Every Day

MUST ENROLL IN SPORTS

Quantico, Va., Dec. 5.—Joy reigns in the big Marine Corps cantonment here as the result of an order of Major Gen. John A. Lejeune that all military work will be dispensed with after noon every day.

No Marine will be required to drill or do "police" unless he refuses to play, go to school, rehearse with a dramatic troupe, sing or take lessons with the band.

"This is the time for play and healthy sport," announced Gen. Lejeune. "Work in the afternoons will be abolished, and every man will be required to enroll for some healthy sport or other form of entertainment."

"We want to make Quantico a model post for other posts to look at and wonder how we do it."

In addition to many teams, classes in the following subjects are planned: Gas engines, Diesel engines, electricity, automobiles, mathematics, English, stenography and typewriting, bookkeeping and accounting.

A series of nine laboratory lessons in agriculture have been worked out by the Orange county agent and superintendent of schools and sent to each rural school in the county to assist in the teaching of agriculture.
